

Caretaker Report

Week of 4/10/22

- The 10:00 pm ferry boat did not run on Friday and Saturday. I checked the camera on the Island Dock as well as the mainland and no one was waiting for the ferry.
- Just a reminder to renters and owners: large plastic bags are not to be used in the trash receptacles. These bags expand in the bins making it difficult to remove, on some occasions the bags are ripped open.
- Slavek Pardo, a candidate for the captain's position will be on site for training on Tuesday afternoon and again on Friday.
- A renter attempted to board the ferry Saturday night at 6 pm with a puppy. They were informed that they could not have a dog. The owner thought it was a emotional support animal. The family did not produce any such paperwork and stated that if they knew it was not allowed, they would not have brought the puppy. The family did not come to the island.
- Stoney repaired the lawn mower which needed a new pulley and belt.
- WO 431638 a step on J-5 was repaired and should be marked complete.
- WO 427777 C-1 had some rotted wood that was repaired and should be marked complete.
- WO 427778 C-1 screen repair was repaired and should be marked complete.
- WO 429347 Roots and branches at J-5 have been removed by Stoney and should be marked complete.
- WO 429276 Rodent traps around J-3 have been refreshed and this should be marked as on going.
- WO 430858 Pressure wash F Building is complete.
