

eBlast 5-16-22

The eBlast that you recently received regarding the barge landing proposal from Robert Hill is committee report submitted to the board. It was in the draft stage and was delivered prematurely. The board's only intent at this point is merely asking for your feedback on this subject. Mr. Hill has requested a meeting with the board, and we felt that it is important to consider your thoughts and opinions before responding. No board level discussion has taken place to date and no plans have been made to move forward in any way. We will review the feedback received from all of you and then decide what the next step is. Thank you for your understanding.
